# A Data-driven Approach to Assessments for Life-long Learning [Dubeldor]

25 May 2023 | Utrecht, the Netherlands  
Marco Dumont

# Which problem do you want to solve?

- Project idea summary:
  - Which issue? *Life-Long learning is necessary but organisations struggle to facilitate employees' learning. Shifting the responsibility to employees. And with busy lives, knowing what to learn or unlearn helps in capability development.*
  - How to tackle that issue? *We tackle the information gap by using a data-driven approach to assessments in the workplace.*
  - What expertise does your organisation offer? *We know how!*

# What are you looking for?

- **Missing partners / expertise**
  - All who want to contribute, data, has money, has time.
- **Partners already involved**
  - Open Universiteit Heerlen (PhD research)
